

CS 4223 Project Checkpoint #7

Due November 15

Assignment

Enhance your Slic parser so that it correctly parses *print*-statements, *if*-statements, and *if/else*-statements. Include semantic code to include these statements in your abstract syntax tree and a code generator to produce executable GSTAL code that correctly implements the semantics of the Slic program.

What to Turn In

Zip your source code files, including the *makefile*, and turn them in via Blackboard by class time on the due date. Also, turn in a hardcopies of your files.
